**Storgard Insect
Monitoring Systems**

Giridhar Pai Associates

Giridhar Pai Associates (GPA) is Asia's exclusive authorized distributor of Trece Inc.'s Storgard Insect Monitoring Systems – the world leader in pheromone-based pest monitoring.

giridharpaiassociates.com

We Provide

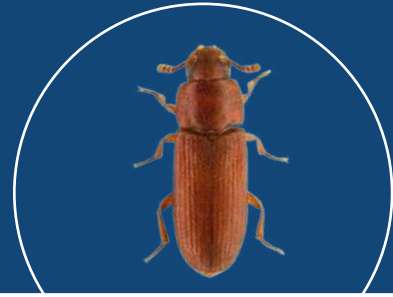

Storgard traps and lures designed to effectively monitor all common Asian stored product beetle and moth pests.

Introducing the Storgard Quick Change (QC) Dome Trap:

This advanced version of the classic Dome Trap features an innovative lure tray with enhanced pheromones and kairomones, significantly improving attraction and capture of stored product beetles.

Target Specific Pests with Precision

QC Dome Traps with specialized lure trays are available for:

**Confused and Red Flour
Beetles (CFB/RFB)**

**Cigarette
Beetles (CB)**

**Khapra and Warehouse
Beetles (KB/WB)**

The Ultra Combi Lure Tray:

A single Ultra Combi Lure Tray effectively monitors twelve key stored product beetle pests, including the three listed above, plus:

Drugstore Beetle

Rice Weevil

Rusty Grain Beetle

*Red Legged Ham
Beetle*

Granary Weevil

*Saw-Toothed Grain
Beetle*

Maize Weevil

Why Choose

the Storgard QC Dome Trap?

Durable & Reusable:

Made from robust plastic, the trap is reusable for long-term cost-effectiveness. Simply clean and replace the lure tray.

Space-Saving Design:

Its compact size allows placement in tight spaces, such as inside pallets or under storage racks, ensuring comprehensive coverage.

Easy to Use:

Quick assembly and lure tray replacement simplify maintenance and periodic insect counts.

Highly Effective:

Consistently attracts and captures both male and female target beetles, enabling early detection and accurate assessment of even low pest populations.

Cost-Effective:

Lure trays last for two months, and the Ultra Combi Lure Tray consolidates monitoring for multiple species, reducing costs and labor.

Storgard pheromone traps and lures available with GPA
