

# SERRICO TRAP

the world's first pheromone trap against cigarette beetles

## COMBINED LURE

Pheromone and food lure to attract male and female beetles.

## EASY TO ASSEMBLE

Prepared by peeling release paper from glue & placing lure.

## DUST PROTECTION

Side flaps to protect trap glue from dust.

## HIGHLY EFFECTIVE

High cigarette beetle catch rate among other similar traps.

## ECO-FRIENDLY

Pesticide-free solution.

## BENEFITS

**01**

### **DETECTION & ESTIMATION**

Verify cigarette beetle presence and population levels.

**02**

### **WIDE APPLICATION**

Unique design allows trap use even in dusty environments.

**03**

### **EASY TO USE**

No training or prior knowledge required to install and use.

**04**

### **ASSURED DETECTION**

Detects cigarette beetles in any space with its adult population.

**05**

### **REDUCED PESTICIDE USE:**

Limits pesticide use only on detection of cigarette beetles.

## Fuji Flavors Co. Ltd. manufactures

the new Serrico Trap and following stored product insect pest monitoring products.

### Serrico W+

To monitor cigarette beetle (*Lasioderma serricorne*), Indian meal moth (*Plodia interpunctella*) and Tobacco moth (*Ephestia elutella*).

### Torios

To monitor seven pest beetles individually: Red flour beetle (*Tribolium castaneum*), Confused flour beetle (*Tribolium confusum*), Lesser grain borer (*Rhyzopertha dominica*), Saw toothed grain beetle (*Oryzaephilus surinamensis*), Khapra beetle (*Trogoderma granarium*), Flat grain beetle (*Cryptolestes pusillus*), Maize weevil (*Sitophilus zeamais*) and all species combined through Torios Multi.

### Hiresis

To monitor drugstore beetles (*Stegobium paniceum*) and Carpet beetle (*Anthrenus verbasci*)

### Gachon

To monitor Indian meal moth (*Plodia interpunctella*), Tobacco moth (*Ephestia elutella*) and Rice moth (*Corcyra cephalonica*).
